

North Baddesley

Infant School and Nursery

★ Summer 2 Learning Theme

To Infinity and Beyond!

RESPECT • INDEPENDENCE • RESILIENCE

This half term is all about making steps to prepare for our transition to Year 1. We are thinking positively about what is beyond Year R and giving the children lots of opportunities to start their next step in their learning journey.

We can't believe that we are in the last half term – where did this year go?

Drawing Club

This half term we will be taking inspiration from toys in our drawing club sessions. We will be encouraging children to use their knowledge of phonics and tricky words to write simple sentence codes to support their pictures. Popular toy characters will be a great stimulus for this which we will see sneak into other areas of learning.

Understanding the World Past and Present

We will be exploring toys from the past in our learning making observations between old and new.

Phonics

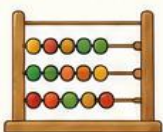

We continue with our phase 4 learning, an opportunity for children to rehearse and consolidate their learning from across the year. Please continue to read and rehearse tricky words at home in preparation for their transition to Year 1.

Maths 1 2 3

This is where we will be exploring to 20 and beyond. How are teen numbers made up and can we recognise any patterns in number?

PE

We will be having fun exploring different games, whilst revising what we need to do to stay healthy. Can your child recall 5 ways that they can stay healthy?

PSHE

Through our PSHE learning we are learning about changing. This supports our discussions around transitions to Year 1. The children will have many opportunities to explore Year 1 classrooms in the coming weeks.

RE

We will have the opportunity this half term to talk about special clothes and why they are special. We get the chance to look at real examples of special clothes from different faiths to support our understanding.

How you can help at home

- ✓ Read with your child every day
- ✓ Practise tricky words regularly
- ✓ Encourage independence with dressing, organising belongings and making healthy choices
- ✓ Talk about their learning and ask them questions

Together we learn, grow and shine!
